- ⭐ User does not need to know how to read to use the program
- ⭐ Appropriate for all ages, ESL and Special Needs Education
- ⭐ Target Age 4-7, Grades K-1

Beginning Reading with Phonics

Beginning Reading with Phonics is an online (Super Star Online) reading course designed to get kids excited about learning to read as they learn beginning level reading skills and words. Though this course is based on reading standards and research, this course is designed to make learning to read easy and fun.

This interactive educational software program includes 3 songs that feature the music of Dr. Jean Feldman (www.drjean.org), along with with a variety of stories that teach reading tips and skills along with games that let them use those skills while playing. This phonics based course begins with recognizing the letter sounds and matching the correct spelling of a word based of the sound of the word. This course covers the Dolch words as well as high-requency sight words for Kindergarten. Skills build so that at the end of the course, students should be able to read and write basic sentences.

Sing-a-long Songs - The songs used in Beginning Reading with Phonics are from Dr. Jean Feldman. They teach easy-to-remember concepts and words put to a lively and fun beat.

Learn the Words - The "Learn the Words" section allows the student to see and hear how the words that were introduced in the songs are formed; using pictures, the word sound and phonemic sounds. These beginning level words provide a firm foundation for learning new words and sounds.

Online: PC, MAC, Chromebook, Android & iPad/iPhone

Beginning Reading with Phonics is included in any subscription to Super Star Online. Compatible with Windows, MAC and Chromebook computers. Can be used on Android devices (download our app) and iPad/iPhones.

Easy-to-Use and Fun

Help Me 2 Learn products feature an easy-to-use naviagation system that is user friendly. Our products use music to do much of the teaching because music can make learning easier to remember and more fun. Then we use games and fun activities that reinforce the learning. The songs and games are all tied together with our "Super Star" system that rewards the student and motivates them to complete all the games and songs, while we track the progress of each student in a colorful and easy to understand report. Once a student has earned a few silver or gold stars, they want to keep on going until they have earned all the stars.

"Your Kids will Love Learning with Super Star"
