

Award winning educational software company, Super Star Online, offering \$100,000 worth of math and reading software for parents and teachers

A Team Building Approach To Learning

Many parents struggle to be actively involved in helping their child with their homework and with working with their child's school and teacher. Super Star Online helps bridge the gap between classroom activities and home with easy-to-use software features that enable parents to work at home and in tandem with their child's classroom activities. The result is a team approach to learning, with students, teachers, parents and schools working actively together to help students learn crucial language arts and math skills. And for a limited time, this software can be yours, free if you [qualify](#).

Funding at Your Fingertips

500 easy-to-apply-for online software [grants](#) are being offered for use with Super Star Online, an award winning educational software line that builds math and language arts skills, through the Help 2 Learn Company, the makers of Super Star Online. The grants, valued between \$200 and \$300 each, are offered to all teachers in public, charter and private schools, Kindergarten through 8th grade. Each teacher will be granted full access to a Super Star Online title with full access for up to 40 students for the current school year ending June 30, 2010.
